

WALL-MOUNTED BOX

PA104PRS - for Pratico Smart socket

Compact design, intuitive installation, advanced functionality

The **Pratico Smart** Socket Wall **Box** is the ideal connection element for centralized vacuum systems in residential and professional environments. Designed to accommodate the Pratico Smart socket and counter-socket, this box guarantees a clean and safe installation, integrating perfectly into the wall or inside furniture, offering immediate access to the **Pratico Smart** system of **TUBÒ Smart Vacuum Net**.

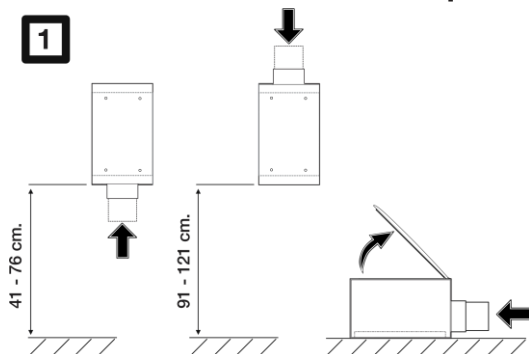

Ideal for:

1. Technical rooms
2. Garage
3. Cellars
4. Service rooms and secondary spaces

In all those contexts where you want to take advantage of the retractable flexible hose, which disappears inside the pipe: there is no need to transport it or rewind it. The result is a practical, tidy system that is always ready to use.

1 - Recommended installation quotas:

2 - Dimensions: 19 H x 13 W x 10 D cm.
